Personal, Memorial And Specialty Monuments*

## PERSONAL AND MEMORIAL MONUMENTS BRONZE PLAQUE TEXT-LAYOUT INSTRUCTIONS

*Keeping Their Memory Close To Home™*

**R**ock & Water Creations' personal and memorial monuments feature a handsome 3 1/2" x 7 1/4" bronze plaque that accepts a maximum of **six lines** based on the layout below (name, date of birth-death, and special verses or quotes). Although six lines are available, it's not necessary to use all lines if you prefer to have less text appear on the plaque.

The **maximum number of characters per line is 43** (each letter, number, space and punctuation is a character that should be counted in this **per-line** total). **Important**—As seen in the example below, the more characters you want included on each line, the more the individual characters must be reduced in size.

Type or clearly print the final text you'd like to see on your plaque on a **separate sheet of paper** and present it to the funeral director or death care or retail professional handling your arrangements so they can fax it with your completed order form to us for immediate processing.

Rock & Water Creations is not responsible or liable in any way for misspellings or errors in fact contained in the information submitted by our customers. Most importantly, we reserve the right to determine the style, size and layout of the text you provide according to the plaque space available to ensure the most professional appearance possible.

Once we receive your order, please allow 4-5 weeks for production and pre-installation of the bronze plaque and shipment of the monument to its final destination.

### BRONZE PLAQUE TEXT EXAMPLE:

**Actual Plaque Size:** 3 1/2" x 7 1/4" • **Plaque Weight:** 2.5 lbs.
